Our profile:

RAGA FOODS are into importation, wholesale and distribution of frozen and fresh food, frozen Vegetables, frozen whole fruits & Purees and other products under the brand ROYAL RAGA and also stock other brands. Our clientele includes wholesalers in Europe, major star hotels, Food service, Restaurants and others valued customers.

In our continued expansion and pioneering spirits we acquired freehold premises in Northolt, West London, which gave us an opportunity to build Ultra Modern facilities for production and storage.

The products we import directly from source are partially used for in-house food production requirements and rest for wholesale & distribution. Hence, quality and price is paramount to us.

We operate from a registered food premises which is HACCP compliant and HSQC certified. On food standards, we have director level commitment, who are certified BRC internal auditors. Majority of the staff are Food and Hygiene certified.

Our people have gained the knowledge and expertise required to meet customer needs, not only with superior quality and competitive price, but also offering a very efficient service and reliability.

Our growth is not by co-incidence, but by being honest, consistent, reliable, efficient and are found to “walk that extra mile” to meet our customers total satisfaction....

Our promise:

We assure you our products quality, consistency, traceability and competitiveness would always be paramount in our relation.

A word of caution- A price that sounds too good to be true, probably is. Actual quality, sizing, and net weight are all important factors that should always be considered when comparing prices of different origins, packing and brands. The taste and texture are also critical.

The storage conditions and maintaining the premises compliant to meet latest food standards would definitely has a price, but gives you more piece of mind.

We have two good reasons over others-We are the few lucky to have the opportunity to try and assess the product quality by using in-house in our catering operation. This really allows us to be sure on the quality we are offering. Further being importers on majority of the lines we are found very price competitive, without compromising on quality.

You will find enclosed products list which mostly covers, but not exhaustive. We can always source and stock special products to meet your requirements.

You will find Account/ Credit application enclosed at the end of the booklet. We shall wait for your response and would be our pleasure to start trading with your concern, upon fulfilling modalities.

We seriously crave your indulgence and confidentiality to ensure that we have a harmonious business relationship...

PRODUCT LIST

We offer an extensive range of Fresh Seafood, Frozen Seafood, Frozen Vegetables, Fruit Purees and Dry Groceries as follows.

aweek SEAFOOD
